

# About the Hands-on Labs

**Power BI Certification Bootcamp (PBI365)** includes a rich set of hands-on lab exercises designed to reinforce the key concepts and techniques that you learned about in the lectures. The lab exercises for Power BI Certification Bootcamp were designed to run on a student workstation or laptop running the Windows operating system. We recommend that you use Windows 10 but you can also use any version of Windows that support Power BI Desktop Windows 10. However, you can also complete these lab exercises on any running Windows 8.1 or Windows 7.

## GitHub Repository for this course

Student files for this course are maintained in a GitHub repository at <https://github.com/CriticalPathTraining/PBI365>.

## Student Workstation Prerequisites

All lab exercises should be completed on a student workstation that has the following software.

1. Windows 10, Windows 8.1 or Windows 7.
2. One or more Internet browsers (Chrome, Edge, IE, etc.)
3. Microsoft Excel 2016 or Microsoft Excel 2013 - *If you don't already have it, you can optionally install it during lab 1.*
4. Power BI Desktop – *If you don't already have it, you will install it during lab 2.*

## Copying the Student Lab Files to the Student VM

The most recent version of the electronic student files for this course are kept in the **Student** folder of the GitHub repository for this course. You can download the zip archive for this repository from the following URL.

<https://github.com/CriticalPathTraining/PBI365/archive/master.zip>

It is recommended that you download the master zip archive and make a local copy of the **Student** folder so that you have a local copy of the files you will need on your computer workstation when going through these lab exercises. Once you download the master zip archive, open it and copy the **Student** folder to a new local folder.

Copy the **Student** folder from the master zip archive to a new local folder at **C:\Student**. Note that each module of the course has its own folder in the **Student\Modules** folder with a **Lab.pdf** file and a **Lab.xps** file for your convenience.
